SENATOR SAVAGE: Is there any further discussion? The motion is to place LB 430 . . . Senator Kelly.

SENATOR KELLY: Mr. President, it's my understanding that this should go to the bottom of General File.

SENATOR SAVAGE: That's correct. Senator Swigart.

SENATOR SWIGART: Mr. Chairman and colleagues, I have promised and said I would vote to put this on General File so it can be debated, but I want to make it very clear that it does not reflect my vote on the final bill.

SENATOR SAVAGE: Senator Burbach.

SENATOR BURBACH: Mr. President, members of the Legislature, I agree that it should go at the bottom of General File. However, in the very near future, in the next few days, I will be setting up a weekly calendar. Of course, I will try and put alike matters together in many instances, maybe in this instance, maybe not. I would like to have it understood that it may not stay at the bottom of General File if there are similar other bills to be discussed at that time with the concurrence, of course, of the Legislature.

SENATOR SAVAGE: Senator Frank Lewis.

SENATOR F. LEWIS: I rise to explain my vote. I certainly intend to vote to put it on General File and continue to vote for it.

SENATOR SAVAGE: The motion is now to place LB 430 on General File despite the action of the committee. Senator Dworak.

SENATOR DWORAK: Record vote.

SENATOR SAVAGE: Senator Dworak has requested a record vote. Record your vote. This requires only 25 votes. Savage voting aye. Record the vote please.
